

LEVEL 2 TRAINEESHIP

REGENERATIVE FARMING & AGROECOLOGY

This course is ideal for students who want to further their experience in agroecology, agroforestry, soil science, and social and economic elements of regenerative approaches to land management and agriculture.

You will study in real-life training settings, within the Black Mountains on the border of Wales and England. Alongside your studies, you will undertake an optional work-based placement to enhance your employability skills and embed your learning.

LOCATION

Talgarth

TUITION TIME

3 OR 5 Days Per Week

COURSE LENGTH

1 year from January - December

MINIMUM AGE

16 Years Old

WHAT IS AGROECOLOGY?

The world of farming and food production is changing. The challenges of climate change and fluctuating economic environments ask farmers to diversify for resilience. Agroecology is a strategy that could help us with these challenges. Informed by traditional global practices, agroecology explores the use of natural systems to promote good food for everyone, forever.

EQUIPMENT REQUIRED

Warm waterproof clothing and shoes for working outdoors, and a pair of wellies.
